ABOUT

We Know the Market. The Market Knows Us.

Only a few. That's who knows the Baton Rouge commercial real estate market as well as Kurz & Hebert. Formed in 1986 by two principals-each with over 25 years experience to date-Kurz & Hebert is a full-service real estate company providing sales, leasing, and management for the Louisiana area. The company specializes in marketing unique properties and finding key locations for new or expanding businesses. We handle commercial real estate for individuals, businesses and lending institutions, and currently manage and lease over 2,200,000 square feet of office and retail space.

As our clients know, we aggressively pursue the unique opportunities present in today's real estate market. We enhance problem properties and turn them into viable investments. Through our seamless connectivity with the market, we easily find new users for closed buildings such as restaurants and reorient existing buildings into new commercial spaces that meet today's complex market requirements. For years, retail leasing and commercial sales have been our mainstay and our efforts to help grow the Baton Rouge market have been widely recognized by the local business community.
