Prissy Reap

ABOUT

For more than 20 years Prissy Reap has been providing professional real estate services to clients throughout Central Louisiana. Working alongside private owners, investors, corporate real estate representatives, and developers she has actively participated in improving the economic landscape of the region.

Prissy has worked on projects such as Chili's and the development of the Albertson's Center where it is located, the revitalization of the Meeker Sugar Mill into an industrial site, the location of Red Lobster and redevelopment of the site into Copeland's, and the sale of a nursing home for the redevelopment of a private educational facility. She has also worked to lease numerous square feet of retail space for private developers both in Alexandria and Pineville as well as marketing commercial and industrial property throughout the area.
