ABOUT

I am passionate about my community! This love for where I live, and what the area offers to its residents is something that developed during my years of work with the business community as Vice President of the Ascension Chamber of Commerce. A love for my region coupled with a strong business acumen, is the key to my success! I pride myself on providing a concierge level of service to all clients. Availability and responsiveness are paramount. Communication is my mantra. I truly believe that the client comes first and that my primary responsibility is to protect and advocate for them at every turn. I am a graduate of Louisiana State University where I studied Business, English, and Disaster Science Management.
